EGX·350
## DESKTOP ENGRAVER

Beautifully engrave precision text and other ne details.

Build Your Business with High-Q

Choose from a wide variety of engraving patterns for added texture.

A Complete Engraving Solution

With the new EGX-350 desktop engraver, you can easily expand your business by adding valuable personalized items to your product line. The EGX-350 quickly engraves a wide variety of materials right in your sign shop, engraving business or retail store. This highly versatile tool is remarkably easy to use and expertly engineered to produce sharp, precision text and graphics. A complete, compact solution, the EGX-350 comes with everything you need to get started. Bundled Roland EngraveStudio software oers advanced features including a new V-Carving mode which produces a hand-carved look, and a new engrave simulation function that saves time and materials by allowing you to preview your designs before engraving.

Increase the Value of Your Products

With the EGX-350, you can create beautiful custom signs and nameplates for both indoor and outdoor display including storefront and directional signage. Turn ordinary gifts, awards, promotional items and padfolios or pens into treasured mementos by personalizing them with names, events or dates. You can even produce design templates for heat pressing rhinestones onto t-shirts, handbags and other apparel items. Select from a variety of supported materials including plastic, acrylic, aluminum, brass and wood.
Unlike laser engravers, the EGX-350 preserves the original colors and textures of wood, brass and articial marbles for a beautifully nished look.

Maximize Your Productivity with Roland EngraveStudio Software
Roland EngraveStudio™

Roland EngraveStudio oers a variety of engraving depths that together produce a truly hand-carved look. Preview your designs on screen through the engraving simulation function that presents both the tool path and anticipated results prior to engraving. Import designs from Adobe Illustrator*2 (ai and eps) and CorelDraw (eps)*3 for precision text and graphics. Roland EngraveStudio is compatible with Windows® 2000/XP and Windows VistaTM.

*2 Before importing Adobe Illustrator data into Roland EngraveStudio, Roland recommends converting vector geometry and text to curves. For best results, switch o all patterns and/or color lls and save les in eps format.
*3 Supports ai (version 8.0), and eps (version 3.0) le formats.

Engrave text with a variety of fonts including TrueType or Single Line.

V-Carving mode produces sharp angles for threedimensional lettering with a hand-crafted look.

Quality, On-Demand Engraving

Get high quality results every time — even on acrylic.

Easy to Use

The EGX-350 connects to your PC through a USB port and is extremely easy to setup and operate. An easy-navigation control panel is located away from the production area oering a clear view of the engraving table. The EGX-350 also features an automatic surface detector that automatically determines the height of the material (Z-zero) for quality engraving at a consistent depth.*1 An adjustable ip cover opens in two positions allowing ecient access to the engraved product. The brushless DC motor is highly durable for long-lasting performance, and the vacuum adapter attaches easily to the spindle to ensure clean operation.

*1 Automatic surface detector works with included Dr. Engrave software and may not be able to engrave some materials depending on their shape and/or design.

High-Quality Results

The EGX-350 is precision-engineered for performance with quality parts that minimize excess movement and vibration from the device. As a result, the EGX-350 produces sharp, crisp text and graphics for reliable results time after time. New Roland EngraveStudio software delivers ne, craftsman-style workmanship for stunning engraved products that project hand-rendered beauty.
